Report Title	Update on North Waikato Public Transport Review

I. EXECUTIVE SUMMARY

Waikato Regional Council, in partnership with Waikato District Council, Auckland Transport and the NZ Transport Agency, is undertaking a public transport review focused on the North Waikato area. The aim of the project is to better understand community transport needs and identify potential public transport options that may be considered for funding as part of Waikato District Council's 2018-21 Long Term Plan.

As part of the review, a household travel survey was undertaken in 2016. The purpose of the survey was to gain the community feedback and to collect relevant information on household travel demands and needs. Following the survey, a workshop was held with the chairs of local Community Boards/Committees and transport partners to confirm the survey findings and to identify key transport challenges. All of the information was then brought together via a technical assessment.

Based on the household survey, stakeholder engagement and technical assessment, a number of potential options have been identified aimed at enhancing public transport connections in North Waikato. These potential options include:

- **Bus service between Pokeno and Pukekohe** – this option will provide improved connections for Pokeno and Tuakau residents to Pukekohe, both in peak and off-peak times.
- **Bus service between Huntly and Pukekohe** – this option looks at establishing a bus service through to Pukekohe once a day in the off-peak, providing connectivity between Huntly, Rangiriri, Te Kauwhata, Mercer, Pokeno and Pukekohe.
- **Bus service between Te Kauwhata and Hamilton** – this option looks at extending the current Northern Connector service to Te Kauwhata for one return

trip in the peak weekdays, providing access for Te Kauwhata residents to Huntly and Hamilton.

- **Bus service between Hamilton and Papakura** – a new bus route designed to provide fast and direct commuter access between Hamilton and Auckland, and between key towns in North Waikato.
- **Bus service between Port Waikato and Pukekohe** – this looks at maintaining current levels of bus service between Port Waikato and Pukekohe (once a week) or replacing the scheduled bus service with a community based transport solution.
- **North Waikato Community Transport Service** – this option will investigate the opportunity of community initiated transport solutions to provide improved transport access, particularly in areas where public transport may not be a suitable/cost effective option.

Waikato Regional Council staff will be attending the following meetings to provide a short presentation and to answer any question regarding the draft public transport options:

- Onewhero-Tuakau Community Board (in Glen Murray) on 4 September at 7.30pm
- Te Kauwhata Community Committee on 6 September at 7.00pm
- Pokeno Community Committee on 12 September at 7.00pm
- Meremere Community Committee on 14 September at 7.00pm
- Huntly Community Board on 19 September at 6.00pm

Report Title	Proposed 2017 Amendments to the Waikato District Council Speed Limits Bylaw 2011

I. EXECUTIVE SUMMARY

The Waikato District Council (“the Council”) adopted a new approach to speed management in June 2017. Council is currently reviewing its bylaw relating to the Speed Limits within the Waikato District. In accordance with the Speed Bylaw Review Policy and the New Zealand Transport Agency (“NZTA”) Speed Management Framework this review has a focus on sites that were identified as having a self-explaining priority of high to medium-high and located within Northern Area of the district. The central area will be reviewed in 2018 with the southern and western areas being reviewed in 2019.

Council is now required to consult on all proposed changes using the special consultative procedure as outlined in the Local Government Act 2002 (“LGA 2002”).

There are no roads within this ward proposed for change in the 2017 Amendments to the Waikato District Speed Limit Bylaw 2011.

The proposed Bylaw will be publicly notified on 13 September 2017 with submissions being open until 13 October 2017. Submissions on the proposed Bylaw will be considered and, if requested, heard by Council at a meeting on 27 November 2017 or as early thereafter as possible. The Bylaw is scheduled to be confirmed by Council at a meeting to be held on 11 December 2017.

2. RECOMMENDATION

THAT the report of the General Manager Service Delivery be received.

3. BACKGROUND

The NZTA Speed Management Guide (“the Guide”) was released by NZTA in November 2016. The Guide is a tool designed to help Road Controlling Authorities, such as Council,

determine objective road risks and work with communities to develop speed management approaches to address those risks and meet their needs. The Guide provides a framework to identify roads offering the greatest benefit from speed management, and assess the safe and appropriate speed on them. The new approach is underpinned by the Government's Safer Journeys Strategy 2010-2020 which seeks to reduce death and serious injury on New Zealand roads.

Council adopted the guidance provided in the Guide as part of a new Speed Bylaw Review Policy ("the Policy") in June 2017. Adopting this Policy formalised the Speed Bylaw Review process. The Policy sets out an approach that splits the District in three areas, with the roads identified as being high to medium-high risk and self-explaining priority by the NZTA Speed Management Framework maps addressed one area per year over a three year time frame as shown in Appendix I. Council staff recommended that the high risk roads in the northern area of the district be addressed first, in the Policy with the central area to be reviewed in 2018 and the southern and western areas being reviewed in 2019.

The roads currently out for consultation in the northern area and additional background information can be found on Council's website www.waikatodistrict.govt.nz/sayit

Issue	Area	Action	Comments
Main Street Signage	Strategy & Support / Service Delivery	Update on viability of Thermoplastic markings option.	Quotes received for thermoplastic markings were not cost effective. Roading have confirmed that the Huntly Community Board can paint the footpaths, using the custom made stencil they have commissioned, and take full responsibility for ongoing maintenance of the markings.
Tainui Bridge	Service Delivery	Can now hear tapping as you drive over the bridge. Is work on the Expansion Plate on track? Is it dangerous?	A temporary repair was made on 23 August. A specialist subcontractor has been engaged to carry out the permanent repair. This work is set to be undertaken over two nights (Monday 18 September and Tuesday, 19 September). The bridge is not required to be closed throughout this period, as it will be completed in two halves.

Seismic Assessments and Earthquake Prone Buildings – Update For Community Boards and Committees

Under the Building Act 2004 Council is required to assess the earthquake risk of certain buildings within our District. In general, the provisions only apply to non-residential and some larger residential buildings. Buildings that are determined to be earthquake prone are required to be strengthened or demolished within specific timeframes set by the legislation (12–25 years depending on use of the building). Recent amendments to the legislation have provided more specific guidance to the way earthquake prone buildings are identified and managed.

The Ministry of Business, Innovation & Employment released a methodology which provides the recommended approach to identifying earthquake prone buildings. Council staff are currently working through this process to take stock of which Council owned buildings are earthquake prone. Council's Building Quality team are concurrently reviewing all other buildings in the District to do the same.

Work is ongoing with initial high level assessments complete on approximately half of Council's building stock. More detailed assessments are being completed as needed. An initial list of potential earthquake prone buildings in your ward is being compiled and will be provided at the meeting. This list is subject to change as further investigations are completed, but provided for your information.

Council staff are developing a page for Councils web site, dedicated to this issue. This will be available to our communities and will be continually updated as we move through the assessment process. It will also be enable Council to link our community with other web sites of interest in this matter to provide the legislative framework and compliance information that directs Council to do this work.

Staff have started working on this concept and are targeting 15 September for the page to go live, in the meantime we will develop media messages on the matter.

Any questions or queries on this matter, please contact Donna Rawlings (donna.rawlings@waidc.govt.nz) in the first instance.

Report Title	Huntly Memorial Hall Consultation

I. EXECUTIVE SUMMARY

Consultation on the future of Huntly Memorial Hall was undertaken between 31 July and 25 August. A letter and submission form outlining the options and seeking feedback was sent to all those ratepayers who pay a targeted rate towards the Huntly Memorial Hall, this totalled 3044 letters. It is noted that some ratepayers received multiple letters and therefore made, or had the option to make multiple submissions.

The consultation on the future of the Huntly Memorial Hall was seeking preference from the submitter on one of five options. These options were established in consultation with the Huntly Community Board. The details of each of the five options is outlined below.

Option 1

Fix the Memorial Hall to meet all standards, as per condition assessment reports received (approximate value of works \$1.6 million) at an additional targeted rate cost of \$45.06, bringing the total Community Facilities rate for Huntly to \$71.06 per rateable property.

Option 2

Remove the Huntly Memorial Hall and landscape the area incorporating the memorial items (such as bricks, roll of honour) in consultation with the RSA and HCB (this option would be at no additional impact to the targeted rate).

Option 3

Remove the Huntly Memorial Hall, rehome the memorial items, sell the land and earmark the funds for future use in the Huntly area (this option would be at no additional impact to the targeted rate).

Option 4

Remove the existing building and rebuild a new facility incorporating key historical and memorial elements – approximate cost \$2.1 million. This would mean an additional targeted rate cost of \$59.14 bringing the total Community Facilities rate for Huntly to \$85.14 per rateable property.

Option 5

Actively pursue commercial/community partnerships to repurpose the Hall (e.g. a commercial partnership that would undertake repairs to the Hall but would use the Hall for their purposes predominantly – this could mean limited use for the community), (this option would be at no additional impact to the targeted rate).

During the consultation a total of 485 submissions were received. A breakdown of these submissions is tabled below.

Option	Number of submissions in support
Option 1	101
Option 2	147
Option 3	87
Option 4	24
Option 5	75
Did not indicate	4

Given that some property owners own multiple properties in Huntly, a number of submissions were received from owners of the same property. The table below shows the number of submissions received where multiple submissions by the same property owner has been excluded. Note: instances where for example a husband and wife have made a separate submission, both submissions have been included.

Option	Number of submissions in support
Option 1	127
Option 2	159
Option 3	88
Option 4	24
Option 5	83
Did not indicate	4

2. RECOMMENDATION

THAT the report from the **General Manager Strategy and Support** be received;

AND THAT the **Huntly Community Board** acknowledges the feedback received from the community on the future of the **Huntly Memorial Hall**;

AND FURTHER THAT the **Huntly Community Board** continues to work with the **Community Facilities** project team to determine future opportunities for community facilities in Huntly.

Will the locals be part of any work to be carried out? What guarantee will we have that Huntly will keep control of their Hall.

59	S	Davies		1	I consider the Huntly Memorial Hall as still a suitable building for functions etc. But I do object to payments coming from ratepayers when one considers. - 1. Stickers for rubbish bag collection 2. Water rates 3. Storm water/sewage rates Perhaps Huntly residents are paying more than a fair share W.D.C must have considerable money in the vault - how about W.D.C. paying for this upgrade.

60	DV & AMF	Falconer	147 Kimihia Road RD1 Huntly 3782	1	<p>We, as long-time residents of Huntly, are very disappointed to hear of the proposals for our Memorial Hall and wondered why planned restoration had not been undertaken since the building has been closed for some time to do this?</p> <p>We question the legality of the proposals as the Memorial Hall was funded by local people as a memorial which by definition was to serve to help people remember people and the event which they gave their lives for. It would be outside of the law, or misappropriation, to do anything other than restore the building which was supposed to have happened several years ago as far as we, as a family in Huntly know, and that Council funds were already set aside to restore the building – what has happened to these funds and why wasn't the planned restoration completed with Council funds set already aside to do this? It can only be Council mishandling of their responsibility to keep the building safe and sound which the longer it takes to restore obviously the more it will cost. We don't believe the people of Huntly should be asked to fund the repairs as this should already be covered under the annual rates and maintenance of our 'public' buildings be managed out of these rates. The very reason that the Memorial Hall was erected is as a heritage to the Huntly people and therefore it needs to be listed as a heritage site – it cannot be anything else. Council cannot destroy our buildings (memorials) as it gives our youth monuments (buildings) to base their values on, some heritage, to 'remember lest we forget' what some have lost their lives in great acts of bravery, to perpetually express 'we remember' to the families that have lost loved ones - names that are still Huntly family names. It is disgraceful for Council to even propose anything but restoring the building as was already supposed to have happened with funds Council had set aside. We knew the building needed maintenance and that was entrusted by Council to manage so this building would serve as an important</p>

61	Tiffany	Whyte		2	<p>I am pleased to submit on this issue as a Huntly ratepayer.</p> <p>We live in Ohinewai, however I am a rate payer in Huntly as we own two rentals in the township, we try and provide ethical accommodation for locals who are not in a position to purchase their own home. I also consider myself a proud Huntly local and call Huntly my home town.</p> <p>Thank you for the opportunity to have input into the future of the War Memorial Hall.</p> <p>Large quantity of halls/spaces available in our community already</p> <p>It appears that there are over 25 hall or event based spaces that can be used within the Huntly township and more if the surrounding areas are included. These include:</p> <p>7 Religious based spaces 3 Council facilities 3 Business / community organisation facilities 5 Schools with halls and/or Gyms 7 Sports Clubs with meeting spaces</p> <p>There are possibly more available, including Marae and outdoor spaces for use in the better weather. The Huntly West Hall has been demolished and has not been rebuilt with no effect on the surrounding community, other than improving the area with the lack of negative behavior that the hall attracted. The cost to upkeep has been reduced significantly.</p> <p>The above mentioned facilities are not fully utilised and while some are getting more use due to the Memorial Hall not being available, I do not believe these events would return to the Memorial Hall if it did become available again.</p>

104	AG	Kosoof	PO Box 33 Huntly 3740	1	Although I have elected option1 I don't believe the ratepayers should be rates extra for this cost. The council has not done enough to find the cost within its operating budget given that it was their responsibility to keep it in a good state of repair from the time the community paid the original cost to build it. Where has the dedreciation cost that council has charged all its rate payers over the years gone? where did these funds go?

109	Barbara	Baker	82 Great South Road Huntly	2	I think it's a total waste of rate payers money to fix the hall. No one was interested in it for years and now all of a sudden it's a priority. Our rates are higher enough as it is, plus add on the water rates it becomes a struggle just to keep your head above water all for the sake of a hall that hasn't been used in years, a nice landscape area would enhance the lake area and benefit the wider community.

Further, we even have to buy tickets for our garbage collection every week. And now I understand we will be liable to pay for water rates as of July 2017. So my question is what service does the Council provide us in order to charge us such a high rate.

Huntly properties are not high value as in the above area. Therefore, the rates on my property should be received and brought down. 4. Since the water is now user pay the service provided should be looked into. 1. I moved here 44 years have 3 grown up daughters with familys of there own. My grandchildren (7) & 3 great grandchildren includes a set of twins. They have to know what the history of N.Z. was, and if you leave it standing they can come down & touch part of it. Not look at it on the computer. And I am sure we can find a better use for the hall than just to pull it down. I moved to Huntly in Feb this year and have been driving around the place twice a week, about 1 hour each. When are the people responsible for maintenance and repairs ie: "the Council" take responsibility.</p> <p>I like to select Opt:No1. - with no additional cost to Rate Payers.</p>
170	Jackie	Broadhurst	24 Rutland Street Fairview Downs Hamilton	5	<p>If we lose the hall once its gone its gone - people struggling now paying their rates don't need them going up any more.</p> <p>But most important of all make the hall pay for itself.</p>

171	BH & GL	Challenor	45 Hakanoa St Huntly 3700	1	Memorial Halls are permanent structures. Removal is an insult to all servicemen who have served in all New Zealand's wars. There is only one option, and that is to fix the Huntly Memorial Hall to meet all standards.
172	L & J	Johnson	16 Rata Ave Huntly 3700	1	Huntly NEEDS a community hall and the memorial aspect is very important.
173	Moa Ventures Limited		165 Fraser St Tauranga 3112	3	Same thing happened in Warkworth. Sell, do-up?? They did it up but what a cost!! To Us. Sell it. Put the money into some hot pools in Huntly. So people can swim throughout the winter. OR Some parks with outside gym equipment. These are wonderful for young & old alike. or for old to watch young heh heh.
174	Brian	Curle	PO Box 74 3700	3	With 24 halls, excluding Church halls already in Huntly the likelihood of a revamped Memorial hall is unlikely to increase options for hall space/hireage required in the town.
175	Mr Graham W	Rongo	47 Paki St Huntly 3700	1	It's always been apart of the Huntly community since I was a kid growing up here I've attended numerous functions there so to keep the hall & refurbished it is the only option for future generations of our community. #keep hall.
176	Deone John Laurence	Smith	93b Hakanoa Street Huntly 3700	5	In my view, the Memorial Hall would best serve the community if it were utilized as a business venture in partnership and/or overseen by the Council and the R.S.A. The ideal use of this site would be a café and events centre (weddings etc.). If the northern wall facing the carpark were opened up and outdoor seating made available, it would make a great venue/weekend café for locals and visitors. Such a business would provide jobs for locals and a much needed boost to the Huntly community.

177	K G and D M	Masters & Robertson	50 Fairfield Ave Huntly 3700	2	Don't want an increase in rates. They are high enough now for what we get.
178	Paul	Stewart	PO Box 168 Huntly 3700	2	No need to burden the rate payers any further. The Civic Centre is right in town with plenty of parking and should be utilized properly. It should be used no instead of storing the Coalfiled Museum Junk.
179	Anonymous		Personal information concealed. Thank you. I cannot cope with any further increases to my rates. The new wastewater charges have broken the camel's back and are just too much for superannuitants.	2	No more additional rates please. Sell the land & use the money for Huntly, not the golden areas of Pokeno & Te Kauwhata. We've had enough charges & extras this year with wastewater charges, rubbish bag charges etc I am still not happy with the "No Cash" rule at Huntly office. This makes it so difficult for a lot of oldies. What is so different about the little princesses at the Huntly Office compared with all the other offices. I no longer use the Huntly Library now - This rule puts me right off the place. A community service should be for ALL the community, not just those selected by staff. This system was also introduced in a very sneaky way when the upgrading was done so now I am very suspicious of all Council decisions.

180	Gaylene	Himona-McNaught	80 Great South Road Huntly 3700	Did not indicate	Note: No option selected. If option 3 is successful, how is the land sold? Public or private? When you say "earmarked" is that like money that was already "earmarked" for the Memorial Hall but strangely not used for the Memorial Hall? - And if so "who" determines what "future use" looks like and do you guarantee that it will be in "the Huntly area"? Will you also be transparent regarding Option 3 in as far as clearly showing its 1. Market valuation 2. Rateable valuation 3. Marketing plan 4. Sale price showing all expenses 5. Track of that money in WDC accs 6. When it is being used 7. Interest that it earns 8. Final statement showing all transaction & monies accounted for 9. Separate notification of the above just like this separate letter? I at this stage will await your response to the above before I choose an option.
181	Duncan	Gillies	13 Croft Terrace Huntly 3700	2	I feel the land should remain in public ownership. The hall its self is no longer an asset but a liability. The area should be blended in with the existing rose gardens to make a more fitting memorial for those who have fallen on our behalf.

232	Peta	Sinclair	102 Rayner Road, Huntly, 3700	4	<p>Huntly will grow, it is happening now. Now is a prime opportunity to start giving Huntly a heart and soul. Community Hall's, have always been the center, the heart of bringing a community together. Removing or selling off serves only the Corporate type thinkers. It is the Council's obligation to ensure the preservation of the Community. I see this as a positive opportunity to design a building that will be future proofed in design and amenities. Huntly requires an injection of freshness which will help bring a positiveness that currently seems to be missing within the township.</p> <p>Understandably, Huntly District population are mainly lower income earners, where, an increase of rates can be quite taxing on an already tight budget.</p> <p>My preference is to make use of this opportunity to move Huntly forward but with some innovative thinking and planning, Huntly will have a Community Centre.</p>

294	Jim	Ivens	69B Hakawoa St Huntly 3700	3	With yet another significant increase in rates this year at some stage Council has to look at options that reduce rates - not keep offering ways to increase them further.
295	EJ & DM	Bland	11 Arohanui Street Huntly 3700	1	Poor management by Council has caused this issue in the first place. If budgetary R&M had been done in a timely manner over the years, the rate payers wouldn't have needed to object, pay again or vote for an option - this is not a cheap exercise!
296	Holmes	John	3790 Great South Road SH1 Huntly 3771	2	We believe option 2 is a fair option which allows the area to be remembered and could be a focal point in the town.

298	Judith	Hogan	130 Kimihia Rd Huntly 3700	1	1.6 million seems to me to be outrages. Surely local builders could work together and come up with cheaper prices. then perhaps put it to use as new museum and make it pay for itself with donations - in prime spot and will bring people from caravan park - makes sense to me as a long time resident of Huntly please - listen to the people that have been around for a long time and love this town.
299	Ajmal	Khan	17 Harris Avenue Huntly 3700	3	Note: Selected all options. Option 3 is 1st option, Option 5 is 2nd option. Hall is rarely used. Does not bring much income to Huntly if land is disposed to an organisation - will serve greater benefit and purpose for the area. Reconstruction or renovations will not increase greater usage or bring any extra income. The Huntly rate payers are already burdened with rates, water, lakes - contributions etc. The return to rate payer is very little and service by council - is more desirable in some areas. So there should not be any rate payer contribution increase by your options.

We can recall when it was used most weekends for different venues such as weddings, Scottish country dancing, garage sales, book sales, and dances. As these venues have all gone now and we are long standing rate payers, we don't just like paying any extra rates to maintain. There fore we have decided to vote for Option 5, as we don't want to see it pulled down.

Thirty they water rate went up without them starting Hall it a enough* Now Stop it now. :(*see paper submission
347	RC	Hart	161 Kimihia Road Huntly 3771	2	The new hall would be a target for vandals & tagging. The present hall is/was seldom used, (as is the Central War Memorial Hall at Ruawaro.) If the present hall is repaired, or demolished and a new hall built, it will become a white elephant, as it is now. Remove the hall and beutify the area, and don't sell the land.

Times have changed and the reson for having a hall with it - i.e. - Weddings - 21st etc. There are other places now that can be used for the same things. the rate payers have to fit the fill & why should we. I don't intend to use the hall if it is replaced as I have other options why pay for something I won't use!!! I don't agree with selling the land either. I hope it could be made a place where people can visit & be useful to the community a place of peace & remembrance.

EVERYTHING else has disappeared. For at least the first 10 years of WDC being the majority of our rates bought other communities up to our standard. I realise the current building is NOT flash but it is ALL we have. Locals have offered to provide their services (such locals being professional builders/plumbers etc - people more than qualified to provide their services) & been made to feel inferior.</p> <p>This building involves Huntly Community Spirit NOT WDC community spirit (a very ambivalent concept) & we need it to build/strengthen our community. A building where we will no longer be turned away from using it (the past 8-9 yrs status quo) & a building with memories, local pride (not a new passionless civic centre type building) - but something representing us. I would incorporate positive activities which include - cuesports (8ball, 9ball, snooker, billiards etc), darts, indoor bowls, table tennis, chess and other activities including providing an area for school work, studying etc. All health providers and govt agencies would have access to deliver programmes that would assist youths making better decisions in life i.e. becoming better citizens in society, not partaking in drugs, bullying, alcohol and the effects of suicide. Cuesports will be the vehicle to provide youth an opportunity to compete regionally, nationally, and internationally. This building holds a special place for the people (citizens) of Huntly and could never be replace by any other building or would have the history this building has. I hope the Huntly Memorial Hall and surrounds always stays and remains the same.
417	Carl	Fris	63 Kimihia Rd Huntly 3700	1	I do hope this will not set a precedence for future revenue seeking for items that should have been maintained already by our rates. Furthermore this cost should cease upon payment of finishing hall and not become a future cash cow for council at our expense.
418	Geoffrey	Moulden	9 Lakeview Terrace Huntly 3700	5	The hall was build by the people of Huntly for the people of Huntly. I realise that over the years the Hall has been used less and less and the facilities have become run down, by demolishing the hall and selling the land the people of Huntly lose one our few public buildings. A business could rent the whole property and kept it whole.

419	Rose	Fletcher	568 Great South Road Huntly 3700	1	Local builders should be consulted to undertake the repairs. I realise that only "Council Approved" builders can be used, but I think they see this as guaranteed money and quote what ever they like. 1.6 million to repair is outrageous. After all local builders built it. I am prepared to pay for the repairs on my rates. 100% against Option 3. When it's gone it's gone. "Earmarked" funds were help for repairs to the hall. Where did they go. Council have let the community down on this one, to let the hall get into the state it has is almost unforgiveable, and disrespectful to the very people it represents.

It would be outside of the law, or misappropriation, to do anything other than restore the building which was supposed to have happened several years ago as far as we, as a family in Huntly know, and that Council funds were already set aside to restore the building – what has happened to these funds and why wasn't the planned restoration completed with Council funds set already aside to do this? It can only be Council mishandling of their responsibility to keep the building safe and sound which the longer it takes to restore obviously the more it will cost. We don't believe the people of Huntly should be asked to fund the repairs as this should already be covered under the annual rates and maintenance of our 'public' buildings be managed out of these rates. The very reason that the Memorial Hall was erected is as a heritage to the Huntly people and therefore it needs to be listed as a heritage site – it cannot be anything else. Council cannot destroy our buildings (memorials) as it gives our youth monuments (buildings) to base their values on, some heritage, to 'remember lest we forget' what some have lost their lives in great acts of bravery, to perpetually express 'we remember' to the families that have lost loved ones - names that are still Huntly family names. It is disgraceful for Council to even propose anything but restoring the building as was already supposed to have happened with funds Council had set aside. We knew the building needed maintenance and that was</p>

Surely, the Hall should be registered as a "Heritage Building" and attract all the protection possible from "would be" upgrade requirements.</p> <p>We strongly object to any redevelopment.</p> <p>Funding or maintenance: we understand \$50,000 is earmarked EACH YEAR from general rates/public ammenities = where is the current balance of the previous 5 years (plus some no doubt): where NO funds have been expended to date on maintenance or upgrade of current facilities, even though a new roof would at least protect from impending deterioration. >And the price FAR CHEAPER than "Option one"</p> <p>We fail to see that builders & bricklayers o this era would now require their buildings all that era to also be "demolished" due to not being "up to a current building code"</p> <p>We require COMMON SENSE & SOME LOGIC to secure this building's existence by our NOW District Council, as as intended. My husband and I have been paying rates in Huntly for over 35 years and not only on one property, at the moment it is on four properties. As part of these rates we have been paying for the up keep of Huntly Halls the Council has failed to use the ratepayers targeted money for this purpose and therefore this money has been collected under false pretences.
