Flying Fox -Curved laminated Beam & Wharenui Module CT615 V11

Design 3

PlatinumPlay Flying Fox -Curved laminated Beam

The curved laminated beam stands 3 metres high. The flying fox is manufactured to fit into your space available.

We included a launch deck to ensure the correct gradient for the flying fox to function .

Wharenui Module CT615 V11

We have designed a module structure acknowledging the historical site of Point Reserve. Packed with lots of play value for younger and older children.

The junior entry stairs allows access to the 1 meter wide slide & the junior side of this module. The double steel mesh Rockwall, Wall Climb 1 chain and banister slide offers a real climbing challenge for older children.

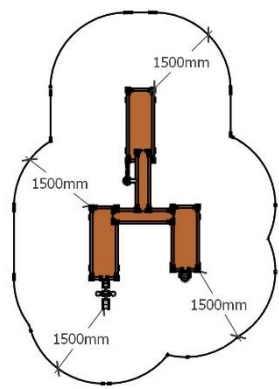

PlatinumPlay Forest Cantilever Swing & PlatinumPlay Water Play Unit

Design 3

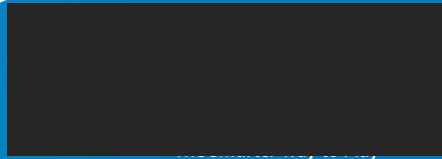

PlatinumPlay Forest Cantilever Swing

Play together, draw up play rules. Compare what one child can do and what another child can. These are important steps in a child's social development. The Cantilever Swing and basket incite children to develop these abilities. Standing close together on the basket a child has to coordinate its movement well and clearly state in what direction he/ she wants to swing. When this succeeds, a child has the feeling to fly over the framework. After that the children can just swing to and from.

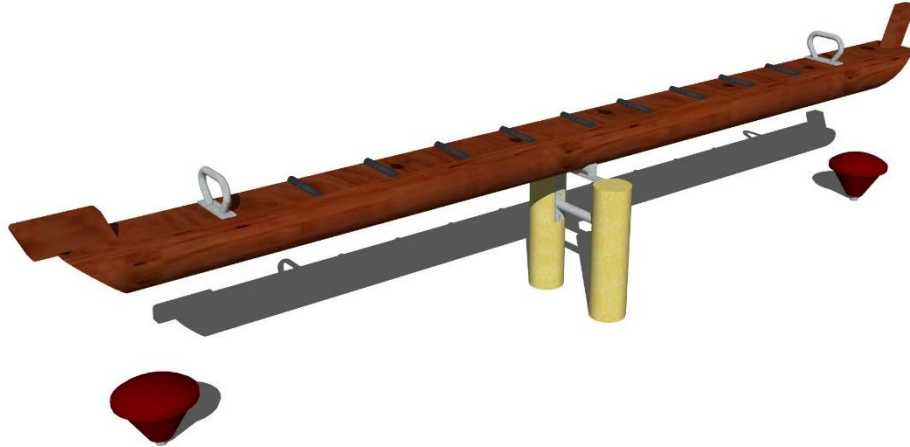

The Water Play Unit with its five totora tables and stainless steel water pump is a complete water transport system. With plenty of space for children to play together or on their own. Each section offers new and exciting features: a tip tray water transport channel to both sides of the unit. A transfer table which leads to 2 additional tables where the water can splash down into a shallow basin and onto the sand.

Waka Seesaw & Tipi Carousel

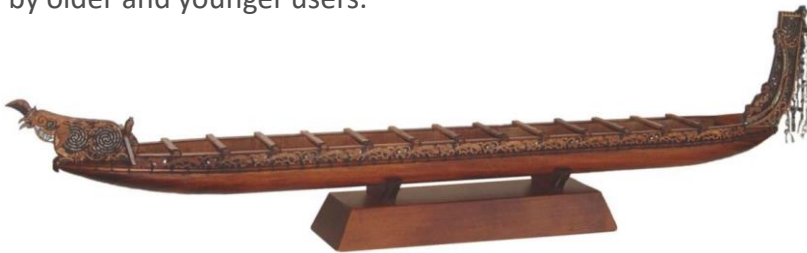

Design 3

The PlatinumPlay Waka Seesaw

The Waka Seesaw has been designed for this play space to tie into the history of the area.

The traditional seesaw is always a favourite in a playground by older and younger users.

KOMPAN TIPI CAROUSEL WITH TOP BRACE ELE400065

The Tipi Carousel with top brace is a fun and thrilling play starter for social and physical play. Tipi has been tested and approved with children with and without disabilities from the age of 4 years and upwards. The Tipi is a spacious, inclusive spinner, which welcomes all to whirl while lying, sitting or standing, with great support from the top brace. The Tipi invites and encourages social play, children helping each other on and off the carousel, pushing and pulling it to add speed to the play

Forest Swing 1 Bay 2 Seats & Kompan Robinia Agility Trail 4

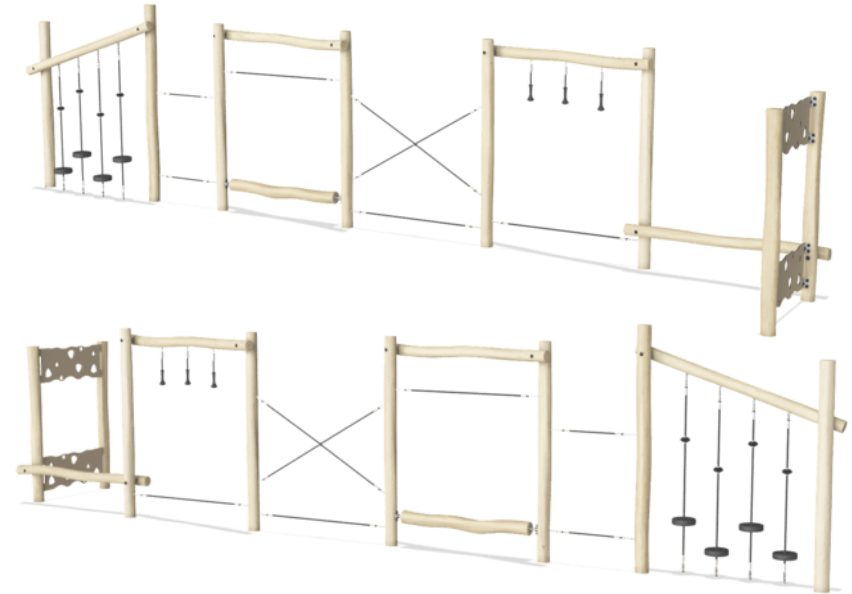

PlatinumPlay Forest Swing

Our Forest Swings are very robust. They are engineered well beyond the demands of the NZ safety standards – with a 150mm Pine Unilog posts with all stainless steel bolts that won't rust it's built to last.

Our Forest Swings can be set at 3m high, providing a nice long swing arc. We have included a junior seat and a belt seat.

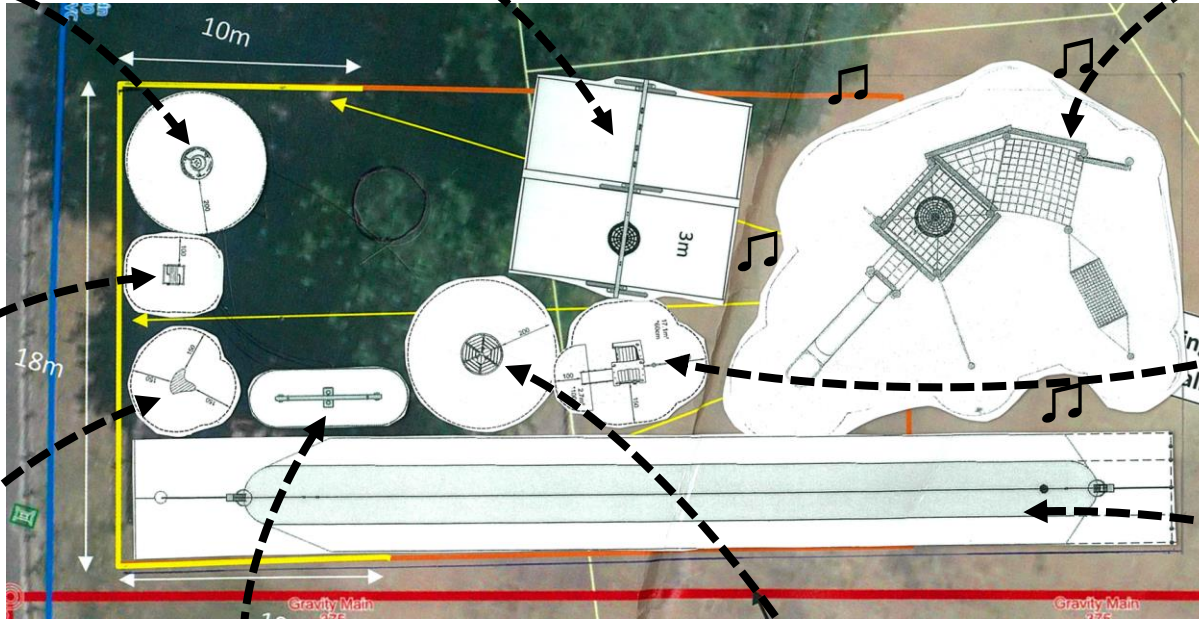

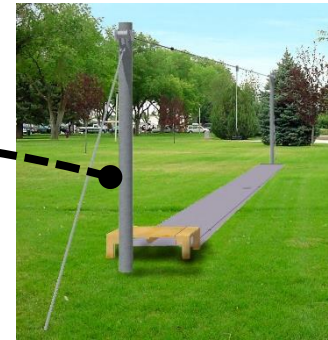

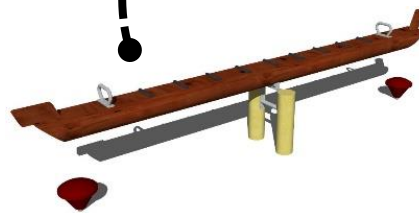

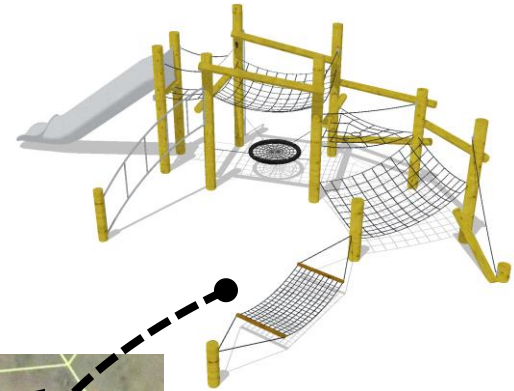

Design 3

Kompan Robinia Agility Trail 4

The Agility trail offers a lineal climbing experience. Balance and core strength are required to climb across the unit. The spinning dynamic bar requires skill to cross.. Packed with play value, it features a tight-rope balance challenge – all set at odd angles to mimic the way children could expect to play in a natural tree climbing environment.

Concept 2 – Site Plan Design 4

2 Bay Forest Swings Steel Post Flying Fox & Waka Seesaw

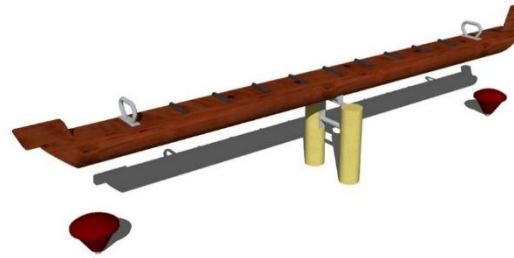

Design 4

PlatinumPlay 2 Bay Forest Swing with Basket

They are engineered well beyond the demands of the NZ safety standards – with a 150mm Pine Uni log posts with all stainless steel bolts that won't rust it's built to last.

Our Forest Swings can be set at 2.4m, providing a nice long swing arc. Each swing and bay can be customised for your playground, with seats suitable for infants, toddlers, older children and larger seats for multiple users

The PlatinumPlay Waka Seesaw

The Waka Seesaw has been designed for this play space to tie into the history of the area.

The traditional seesaw is always a favourite in a playground by older and younger users.

PlatinumPlay Flying Fox – Steel Posts

The steel posts stands 3 metres high. The flying fox is manufactured to fit into your space available.

We included a launch deck to ensure the correct gradient for the flying fox to function .

Kompan Tipi Carousel with Top Brace ELE40065

The Tipi Carousel with top brace is a fun and thrilling play starter for social and physical play. Tipi has been tested and approved with children with and without disabilities from the age of 4 years and upwards. The Tipi is a spacious, inclusive spinner, which welcomes all to whirl while lying, sitting or standing, with great support from the top brace. The Tipi invites and encourages social play, children helping each other on and off the carousel, pushing and pulling it to add speed to the play Red or Green would work well.

Kompan Robinia Multi Springer NRO104

The size and bulk of the Robinia Multi Springer naturally draws groups of children into a cooperative, fun springing and balancing experience. Standing on three sturdy springs, it has proved to be a favourite wherever it is placed. The Robinia Spring Board is suitable for children aged three years and older.

PlatinumPlay Pa Net Tower & play net Structure

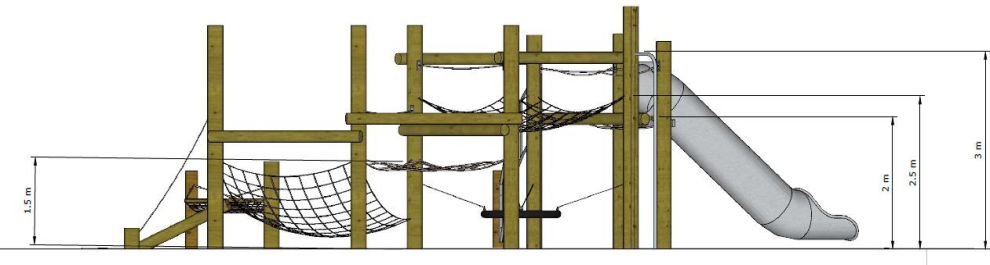

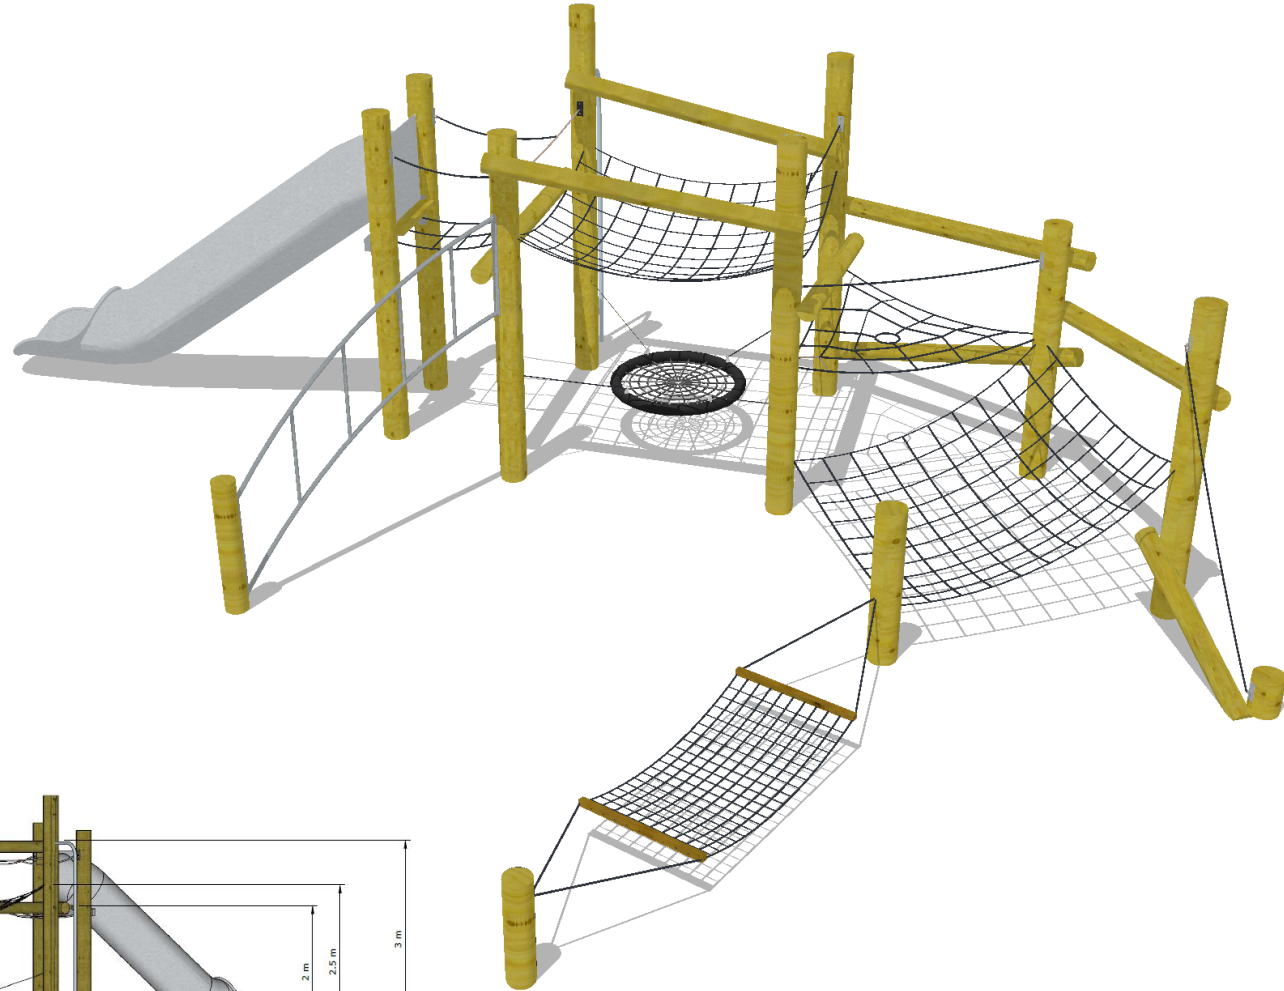

Design 4

PlatinumPlay Pa Net Structure

This piece is a completely new bespoke designed climbing Structure.

Starting at ground level the user makes their way up, over and around the nets and posts, Finishing at about 3m high before entering the plastic tube slide.

There is also a 1.2m wide Basket underneath for socialising as well as the Hammock, Firepole and Arc climber

Kompan Tree House & Percussion Play

Design 4

Kompan Tree House NAT505

The climbing rope combination on the upper level supports spatial awareness development by letting even the youngest players climb and jump. Suitable for 1 -4 yr olds.

Percussion Play - Soprano Quartet

The Soprano Quartet is easily our most popular ensemble and is the perfect choice for those projects where you need to squeeze the most out of your budget and create a resounding impact.

This mixed quartet of instruments comprises; our compact but punchy Cadenza, a Small Babel Drum and Soprano Pentatonic Freechimes.

Spanning 2 octaves from middle C to C6, players will be making harmonious music together almost instantly. The ensemble also includes a pair of medium Congas to help keep a steady beat going.

Kompan Robinia Carousel & Donkey Ride

Design 4

NEW

Kompan Robinia Carousel with Seats.

The Robinia Carousel has three different compartments, each with a handhold and two with seat, one without. The carousel hugely motivates spinning and invites varied ways: seated, standing or even lying on the floor. Apart from spinning, the carousel was designed to motivate pushing and pulling and allow for users to keep moving.

Kompan Donkey Ride NAT101

The Donkey Ride Springer provides a seated rocking experience, with handholds placed to increase or decrease the rocking movement.
