I. EXECUTIVE SUMMARY

On 31 August 2020, the Policy and Regulatory Committee resolved to consider and approve the Waikato District Council Proposed Alcohol Control Bylaw 2020 for public notification and consultation, in accordance with section 83 (special consultative procedure) of the Local Government Act 2002 (LGA).

The proposed bylaw was notified for public consultation on 02 September 2020 with submissions closing on 05 October 2020. Council representatives attended community board meetings for Huntly Community board (15 September 2020), Raglan Community Board (16 September 2020) and Ngaruawahia Community Board (29 September 2020) to answer any queries. In addition to this, an online drop-in session with other community boards was held on 20 September 2020.

A summary document (statement of proposal) and copy of the proposed bylaw and submission form were made publicly available via Council offices, libraries, and the Council website. An online tool was available for those who wanted to provide feedback online. Key Stakeholders including existing sale and supply of alcohol licence holders, Halls Committees and Maaori representatives were also sent information about the Proposed Alcohol Control Bylaw 2020.

In total, 210 submitters made submissions on the proposed bylaw (refer to Appendix 2 of the staff report for the summary of submissions). 18 submitters indicated that they wish to be heard.

The purpose of this meeting is to hear and consider submissions on the Proposed Waikato District Council Alcohol Control Bylaw 2020. A list of submitters who wish to be heard and their initial submissions are included in Appendix 1 of the staff report.

The following documents are included as appendices to this report:

- Appendix 1 - Timing list for submitters wishing to be heard
- Appendix 2 - Submissions received including staff comments

2. RECOMMENDATION

THAT the report of the **General Manager Customer Support** be received;

AND THAT pursuant to sections 83 of the **Local Government Act 2002**, the **Policy & Regulatory Committee** consider and, where requested, hear submissions on the notified *Proposed Alcohol Control Bylaw 2020*.

AND FURTHER THAT subject to any amendments requested by the **Policy & Regulatory Committee**, the proposed bylaw will be considered by the **Policy and Regulatory Committee** at its meeting on **23 November 2020** with a view to recommending the **Proposed Waikato District Council Alcohol Control Bylaw 2020** for adoption at the **Council meeting on 14 December 2020**.

3. BACKGROUND

The **Local Government Act 2002 (LGA)** gives clear guidance on what local authorities should consider when making or continuing an alcohol control bylaw. This guidance has been closely followed in the drafting of the proposed Bylaw.

The desired outcome of the proposed Bylaw is to provide ways of controlling alcohol related harm in the community by supporting safe alcohol consumption habits through the use of clearly marked alcohol control (ban) areas, and signage that indicates where there areas are and the times that the bans apply.

Bylaws made under the LGA specifically apply to ‘public places’ which are defined as “a place that is open to or used by the public including places where a fee or charge applies, such as, a parking area”.

The restrictions within an alcohol ban area do not apply to areas or activities which are covered by a licence issued under the **Sale and Supply of Alcohol Act 2012 (SSA)**.

The proposed Bylaw will also provide Police with an additional tool under the LGA which allows them to control the consumption or possession of alcohol through additional powers relating to arrest, search and seizure in areas where alcohol bans have been implemented through alcohol control bylaws such as the one proposed.

In addition, the Police have stated in their **Alcohol Action Plan 2018** that they cannot reduce alcohol related harm alone and would like to engage local partnerships to address this issue. The proposed Bylaw is an example of such a partnership.

The proposed Bylaw aims to reduce incidents of crime or disorder related to alcohol consumption by controlling where and when people can possess or consume alcohol in public places. It will apply

to public places within the Waikato District specified in Schedules One and Two, and Council controlled parks, reserves, and esplanades.

It should be noted that the purpose of the LGA is not to enable district wide bans, but to allow for the identification of specific areas and the introduction of appropriate controls. The Bylaw therefore identifies and defines any 'control area' through its inclusion in the schedules.

3.1 CONSULTATION

The Special Consultative Procedure was followed to advise the public of the proposed changes and staff used the following communication methods:

- Media Release/Public Notice
- Online engagement tools, including maps and schedules
- Letters to stakeholders
- Information to Community Boards and Committees
- Information to Iwi and Hapu groups
- Council's Facebook page

3.2 PROPOSED BYLAW

On 31 August 2020, the proposed Bylaw was publicly notified in accordance with section 83 of the Local Government Act 2002, with submissions closing on 05 October 2020. A total of 210 submitters made submissions.

An invitation to provide feedback was distributed to key stakeholders including NZ Police, SSA licence holders, Community Boards and Halls Committees, Maaori representatives and information was made available via our Waikato District offices, libraries and website. An online tool was available for those who wanted to provide feedback online.

Council representatives attended the Huntly Community Board meeting (15 September 2020) and Raglan Community Board meeting (16 September 2020) to answer any queries the boards may have had.

Appendix 2 of this report provides a list of submitters and the issues raised by submitters with an accompanying staff comment (where appropriate).

Council must consider each submission and make a determination on each of the issues raised. Each submitter is entitled to be informed of the outcome of their submission, including the reasons for the decision.

All submissions to the Waikato District Council Proposed Alcohol Control Bylaw 2020 have been acknowledged and each submitter will receive a written response following Council's adoption of the Bylaw amendments.

3.3 SUMMARY OF SUBMISSIONS RECEIVED

210 submissions in total were received. Included in these were four from community boards and committees (Huntly, Onewhero-Tuakau, Pokeno and Tamahere) one from the NZ Police, one from the Raglan Police and one from the Waikato DHB combined with support from Auckland regional public health service.

3.4 ANALYSIS OF RESULTS

The below table shows the locality of the submitters. The Raglan community provided the most feedback with 130 submissions.

Table 1

Key proposal one is focused on permanent bans in our town centres (option one) or to include entire urban areas (option two). Out of the two options, option one was more favourable with a count of 56 plus those who favoured option one with amended areas (15) bringing the total support for option one to 71. Option two is favoured by 19 people plus those who favoured option two with some changes brings the total for option two to 22.

Suggestions made to the proposed town areas of option one are to remove Cliff St street in the proposed Raglan permanent ban area, include Taniwha street in Meremere, increase the proposed Pokeno area to include the hall and the Tamahere Community Committee asked if areas in Tamahere could be included also.

Most submitters -117, did not agree with having permanent ban areas (Graph 1).

Thinking about 'key proposal one' where we propose permanent alcohol ban areas in our town centres (option 1) or entire urban areas (option 2), which statement do you most agree with?

Answer choices	Percent	Count
Option 1 - Permanent ban areas in our town centres and near outlets that sell alcohol (areas identified in red on the maps)	26.67%	56
Option 2 - Permanent ban areas that encompass our towns entire urban areas excluding parks reserves and esplanades (areas identified in black dotted lines on the maps)	9.05%	19
I agree with option 1 as well as additional areas that are not proposed	7.14%	15
I agree with option 2 as well as additional areas that are not proposed	1.43%	3
I do not agree with any of these options	55.71%	117

Graph 1

The second question for key proposal one is about introducing permanent (24/7) alcohol bans all year round at specific beach and river locations being Wainui Reserve, Sunset Beach, Karioitahi Beach and Maraetai Bay. 53 people agreed with the ban areas, 152 did not, and 5 did not comment. Suggestions made in the comments section include making these controlled areas of 9pm – 9am as all other council reserves and some did express concerns over littering. Others felt that seasonal bans in these areas would be better than permanent bans while the majority want to enjoy food and beverages on beaches without any bans imposed.

Still thinking about 'key proposal one' where we propose permanent alcohol ban areas at specific locations (Wainui Reserve, Sunset Beach, Karioitahi Beach and Maraetai Bay) which statement do you most agree with?

Answer choices	Percent	Count
Yes I agree these areas should be permanent alcohol ban areas	14.63%	30
No I disagree, these areas should not be permanent alcohol ban areas	74.15%	152
I agree in part however some changes are needed	11.22%	23

Graph 2

Key proposal two is about introducing alcohol control (ban) times of 9pm to 9am in all council-controlled parks, reserves, and esplanades. The feedback shows 127 submitters agree and 80 are against. There were mixed comments provided and majority are regarding Wainui reserve. Some submitters thought 9pm was too early and it should be later in summer, some thought it was too late and should be earlier, while others thought there should be complete bans. Many comments indicate the proposed times are reasonable.

Thinking about 'key proposal two' where we propose to introduce timed alcohol control from 9pm to 9am in Council controlled parks reserves and esplanades, which statement do you most agree with?

Answer choices	Percent	Count
Yes I agree with the proposed times	38.65%	80
No I disagree with the proposed times	38.65%	80
I agree in part however some changes are needed	22.71%	47

Graph 3

Key proposal three to introduce 24/7 bans in the Raglan ward from the 23 December to 10 February is supported by 58 submitters. 53 submitters indicated they do not agree with the proposed dates with many suggesting the proposed ban date concludes before mid-January. That option could be included to support seasonal bans (with reduced timeframes) bringing the total of those in support to 111. Many submitters felt the 9pm to 9am control times would suffice while 94 submitters felt Raglan does not need a seasonal alcohol ban.

Thinking about 'key proposal three' where we propose to introduce a 24/7 seasonal alcohol ban in the Raglan Ward area from 23 December to 10 February, which statement do you most agree with?

Answer choices	Percent	Count
Yes I agree with these proposed dates	28.29%	58
No I do not agree with these proposed dates	25.85%	53
I do not think Raglan needs a Seasonal Alcohol Ban	45.85%	94

Graph 4

Key proposal three to introduce 24/7 bans over the entire Raglan ward from the 23 December to 10 February is supported by 30 submitters. 40 submitters indicated they do not agree with the proposed area with many suggesting the area is too wide. That option could be included to support seasonal bans (with reduced areas) bringing the total of those in support to 70. Some submitters felt the 9pm to 9am control times would suffice while 134 submitters felt Raglan Ward does not need a seasonal alcohol ban.

Again thinking about 'key proposal three' where we propose to introduce a 24/7 Seasonal Alcohol Ban to the entire Raglan Ward, which statement do you most agree with?

Answer choices	Percent	Count
I agree with the proposal to introduce a seasonal alcohol ban to the Raglan Ward	14.71%	30
I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward	65.69%	134
I agree in part but think the area needs to be amended	19.61%	40

4. CONSIDERATION

4.1 FINANCIAL

It is not envisaged that the proposed Bylaw will require any extra funding over that which is currently provided in operational budgets, however the actual costs will not be known until a final decision is made

4.2 LEGAL

Section 147 of the Act specifically grants territorial authorities the power to make bylaws for the purpose of prohibiting or otherwise regulating or controlling the consumption, bringing and possession of alcohol in public places.

Before making such a bylaw, section 147A requires Council to be satisfied that:

- (a) It can be justified as a reasonable limitation on people’s rights and freedoms; and
- (b) There is evidence that the area to which the bylaw is intended to apply has experienced a high level of crime or disorder that can be shown to have been caused or made worse by alcohol consumption; and
- (c) The bylaw is appropriate and proportionate in the light of the crime and disorder.

The considerations under section 147A are an extension of the analysis required under section 155 of the Act. The Committee does not have the delegated authority to determine whether Council is satisfied but can make recommendations in relation to the same.

The Police have provided evidence that there are public areas within the Waikato district that are more likely to be subject to the adverse effects of alcohol. It is those areas for which the Bylaw proposes to implement the alcohol control measures. It should also be noted that, for most of the areas for which this evidence was provided, the previous (now expired) WDC Bylaw was in place.

Such evidence shows that, in accordance with section 147A of the Act, Council can be satisfied that:

- (a) It can be justified as a reasonable limitation on people’s rights and freedoms; and
- (b) There is evidence that the area to which the bylaw is intended to apply has experienced a high level of crime or disorder that can be shown to have been caused or made worse by alcohol consumption; and

The bylaw is appropriate and proportionate in the light of the crime and disorder.

When making or amending a bylaw, the special consultative procedure under the Local Government Act 2002 must be observed.

Council staff are satisfied that the procedure as detailed under s83 of the LGA was appropriate in the circumstances as it enabled the community to respond to the proposed amendments, and for Council to hear any submitters to the proposed Bylaw in a public hearing.

4.3 STRATEGY, PLANS, POLICY AND PARTNERSHIP ALIGNMENT

Staff have identified that there are no specific policies, plans or strategies relating to the proposed Alcohol Control Bylaw 2020.

4.4 ASSESSMENT OF SIGNIFICANCE AND ENGAGEMENT POLICY AND OF EXTERNAL STAKEHOLDERS

1	Joanna Eastwood	Option 1		No bans in place	Also long as people are being responsible with their drinking and not leaving rubbish they are not hurting anyone. Having a glass of wine at a picnic for example	Yes I agree		I do not think Raglan needs a Seasonal Alcohol Ban		I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward		No incidences observed	Too many rules and regulations stopping law abiding citizens from living their lives	supports Option 1 as well as a 9pm to 9am ban in Council controlled parks reserves and esplanades. Doesn't support a seasonal ban in Raglan.
2	Kane Power	I do not agree with any of these options	The more you restrict it, the worse the issue gets, and it's a waste of police time. Follow the European model, stop restricting where we can drink alcohol, and you'll see less alcohol related issues.	No bans in place	If you trust people to behave responsibly, you might be surprised that they will. After an initial loose period the novelty will wear off.	No - I disagree		I do not think Raglan needs a Seasonal Alcohol Ban	Stop trying to control everyone through blanket bans and provide education and support around drinking instead.	I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward		are multiple every weekend in every town and city in the country. Alcohol is extremely harmful. However the solution isn't thought band, fines, arrests, and restrictions, it's through		Doesn't support any of the proposal elements.
3	Stacey Lovell	Option 1 with amendments	Alcohol is particularly harmful in our country.	Yes permanent bans in place	Litter is more likely when people are drinking alcohol also as above	No - I disagree	It should be 24hours	Yes I agree with these proposed dates	Many visitors plus locals and alcohol increases likelihood of problems	I agree with the proposal to introduce a seasonal alcohol ban to the Raglan Ward	As above	Drunk driving. Alcohol litter. And a fight at the camp ground beach		Permanent ban areas in our town centres and near outlets that sell alcohol (areas identified in red on the maps). supports the proposal to make permanent alcohol ban areas at specific locations (Wainui Reserve, Sunset Beach, Karioitahi Beach and Maraetai Bay). supports an alcohol time control in Council

4	Bridget Dobbs	I do not agree with any of these options	It is difficult to understand Option 2. It says "excluding parks reserves and esplanades" but the map is not clear if it's in or out. I STRONGLY DISAGREE with an outright ban in public open spaces.	No bans in place	Most people can enjoy a drink without causing a disturbance. It is using a hammer to crack a nut to stop anyone drinking because a few cause trouble.	No - I disagree	As above	I do not think Raglan needs a Seasonal Alcohol Ban	I would prefer to click "I don't know, I don't live in Raglan"	I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward	I would prefer to click "I don't know, I don't live in Raglan"	No	is an excellent law. It says, "A person is committing an offence if they drink alcohol in this place after being asked by a policeman not to." This means that anyone is free to enjoy a civilised drink with a picnic or similar. However, if they are a nuisance they can be stopped. I strongly object to criminalising a	Appears to not support any of the proposal elements. Also doesn't live in Raglan so wanted to put 'I don't know' in a few instances.

5	Jean Aldworth	Option 1	I agree with alcohol being restricted in shopping areas, but feel that's where councils should leave it, if people are having a BBQ with a few beers or a wine or two no harm in that, if people abuse it and get too intoxicated that's where the police come.	No bans in place	Because law abiding citizens may choose to have a beer or wine with their BBQ lunch or dinner, who are the council to tell them no.	Yes I agree	If the alcohol bans are only from 9pm to 9am then I cannot see a problem with that, as most families would have gone home before those times	I do not think Raglan needs a Seasonal Alcohol Ban	Because to me that's just the beginning, next it will be Easter, then every Public Holiday, then weekends, then a permanent one.	I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward	As above it's only a matter of time before Council are telling us where and when. And I do not think that is Councils right.	Never seen it out my way.	get more in touch with the people, stop trying to rule the ratepayers and get in touch with what the people really want, a classic is the small towns without police presence, the crime rate is shocking, try partitioning the Govt to help out their small towns, you put in alcohol bans, waste of time who's	supports Option 1 as well as a 9pm to 9am ban in Council controlled parks reserves and esplanades. Doesn't support a seasonal ban in Raglan.
6	Ben Worth	Option 2	some parks and esplanades should allow alcohol consumption within reasonfew beers or bottle of wine but certainly not a keg or boot load	No bans in place	because its a cant be governed 24/7	Agree with amendments	10pm in the summer would be better	I do not think Raglan needs a Seasonal Alcohol Ban		I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward		later at night when its been less busy		supports Option 2, as well as a 9pm to 9am ban in Council controlled parks reserves and esplanades (but thinks it should be 10pm in summer). Doesn't support a seasonal ban in Raglan.
7	Alex	I do not agree with any of these options	What justifies this. What's the actual problem. This isn't fair on the hundreds of people who enjoy a couple beers while picnicking or the like.	No bans in place	As above. Why are you trying to control us	Yes I agree		No I do not agree with these proposed dates		I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward		No. I hang around with normal people who enjoy a beer while at the beach etc. Grown adults who are responsible. Why punish all of us for a few bad seeds		supports a 9pm to 9am ban in Council controlled parks reserves and esplanades. Doesn't support a seasonal ban in Raglan.
8	Ronel JACOBS	Option 2	To protect our family and businesses, I strongly believe that alcohol should be ban from urban areas, yet I believe there should be areas like parks that will allow it for social reasons and giving people the freedom to still enjoy a drink in public.	No bans in place	The beach is where people socialise, so no reason why you need to ban people permanently from consuming alcohol in these areas.	Yes I agree	I agree as people can drink further at their own properties or licensed bars if they want to drink after 9pm.	I do not think Raglan needs a Seasonal Alcohol Ban	No, they should have the same bans than the other regions/areas.	I disagree with the proposal to introduce a Seasonal Alcohol Ban to the Raglan Ward	Apply the same ban proposal than Proposal Two to the Raglan Ward	of it on Facebook district group pages of disorderly behaviour in children's play parks in Tuakau caused by alcohol consumption and I've seen a lot of empty alcohol beverage cans in these areas	restaurants don't sell alcohol pass 11pm. I've noticed a few putting public notices out to sell it till 1am - there is absolutely no need to still consume alcohol at a public place after 11pm, unless it's a bar or night club. I'll put an objection in for the councils in regards to this.	supports Option 2, as well as a 9pm to 9am ban in Council controlled parks reserves and esplanades. Doesn't support a seasonal ban in Raglan (wants same bans other areas have, applied to Raglan)
9	Mario Vodanovich	Option 1		Yes permanent bans in place		Agree with amendments	I believe the time should be 10pm - 9am	Yes I agree with these proposed dates		I agree with the proposal to introduce a seasonal alcohol ban to the Raglan Ward		Meremere reserve/skate park		Permanent ban areas in our town centres and near outlets that sell alcohol (areas identified in red on the maps). supports the proposal to make permanent alcohol ban areas at specific locations (Wainui Reserve, Sunset Beach, Karioitahi Beach and Maraetai Bay). supports an alcohol time control in Council

10	Sabine King	I do not agree with any of these options	This is chipping away of the freedom of people and goes to far. The people who are causing problems when they are drinking in public spaces will do that anyway. They don't care about laws.	No bans in place	This is chipping away of the freedom of people and goes to far. The people who are causing problems when they are drinking in public spaces will do that anyway. 120	Charlotte	Option 1	For raglan the urban centre is an appropriate area to ban alcohol in a public place but to ban the whole town area is excessive. Have never seen any issues in public spaces around Raglan. Only ever seen people having fun. Only incidents happen at venues that are licenced from my experiences in Raglan.	None of this should happen or be considered. Freedom to drink in the day on public spaces around Raglan should be allowed. People can be charged for bad behaviour or drunk and disorderly. Don't take it out on all the good citizens who are responsible and still enjoy a drink.	Doesn't support any proposal elements.

APPENDIX 2A - LONG SUBMISSIONS

Huntly Community Board Submission on Liquor
September 2020

We support the total town wide liquor ban. This is because Huntly being a lower socio-economic town, has significant challenges with liquor consumption. Some of these challenges would be reduced if liquor consumption was limited to private property. Below is evidence of the harm that liquor consumption in public spaces produces. This evidence of harm has been collated in a very short space of time and shows the ubiquitous nature of the problem in Huntly. There are four key issues, the broken glass hazard that it produces, the litter problem, the sheer volume of glass and litter produced and lastly public drunkenness.

1) Broken glass. Broken glass is a hazard, since it has razor sharp edges. Broken glass from liquor bottles in public spaces is effectively the norm in Huntly. This was brought home to the chair of the board when he was showing a member of the WDC SLT an issue he was working on getting fixed. The member of the SLT team was startled to see a jagged half bottle sticking up in a public place (either footpath or carpark). The point was the chair is so used to seeing this, it didn't even register as an issue. This brought home how ubiquitous the problem is of broken liquor bottles in Huntly.

Now remember that this town has a significant proportion of folks who struggle financially. What this means in practical terms is that shoes for toddlers, youngsters, children and even adults can be not affordable. Thus bare feet may be the only option available to some. This accentuates the hazards of broken glass, as the shoe sole isn't between foot and glass.

The following examples are given to illustrate how this is a town wide problem:

- Broken cider bottle on footpath of Russell road. Russell road could be considered a better part of town. Once this policy was posted for public consultation, the chair was outside a property on Russell road and noticed a pile of broken glass on the footpath. This has come from a cider bottle, with the remaining parts of the bottle being in the gutter. This footpath is well used by children walking to and from Kimihia school. And being only a smaller pile of glass, presents a greater hazard since children may not notice it, yet the glass was freshly broken and very sharp.
- Broken bottles on park footpaths west side. Walking through a park footpaths next to the West Side Hub, earlier in the year, noticed the remnants of a speights beer bottle sprinkled across the footpath, along with another clear liquor bottle further down
- Broken bottle outside shops. This being a steinlager beer bottle, in shards and pieces outside shops which are heavily frequented by the public.
- Youths smashing bottles. Not all bottles left in the public spaces are broken. Some are left intact. However kids / youth often find these bottles and entertain themselves or show their anger and frustration with the world by smashing the bottles. For example a local business owner caught a mob of primary school kids behaving in a negative way outside his premises and neighbouring business. In shoeing them along they decided to take out their anger by finding nearby empty beer bottles and throwing / smashing them against the building / on the footpath outside the business.

Members of the community also commented the following on facebook when asked for community feedback:

- Sick of seeing smashed glass bottles on the footpaths / parks etc, areas where kids play. Most kids like to play around bare foot or with Jandals - End up getting cut from the smashed glass (many upvotes from other people, so hit a nerve)

- Agree broken bottles on footpaths near playgrounds and parks are a nuisance we like to take kids to the parks run around unfortunately we have had a couple of accidents with broken glass - such nuisance
- Vehicle tyres are my concern towards this. Sick of glass being shattered and unexpectedly driving over it
- like to see followed up with Harris street always has cans bottles ... park behind community hub has loads rubbish cans at times
- Finding empty cans and bottles all over my verge and front lawn and having to check before letting my son go out and play
- I'm usually sweeping up the smashed bottles on the road or kicking the glass to the side! I look for the top and bottom of the bottle as it is the most thickest part n the most dangerous!! Reason y its not safe for the kids .. they play along the footpath & the grass area on sides!!
- James Henry crescent always has broken bottles from party going people that hit it up on the weekends ... I've had to replace my car tyre 3times due to broken bottles on the road
- Willow lake road, another street / area considered a nice place of town. Beer bottles left roadside, and youths mid afternoon in the holidays came along and smashed these onto the footpath covering the footpath with broken glass. This made

2) Litter issue. Litter management is already challenge in Huntly. There seems to be a correlation between low socio-economic areas and litter. So hence overall in Huntly there are litter issues, with pockets of extremely high litter problems. Litter does harm in two major ways. Firstly the litter is transported through the storm water system it to the Waikato awa. Thus polluting the terrestrial, river and sea environments (the majority of sea plastic and litter comes from land).

The more pressing issue is that it impacts the feel of a town. Huntly needs investment to create jobs and incomes for locals. This investment will need to come from outside the town. When outsiders who are not used to the litter volumes found in Huntly, travel through the town, or visit, they are put off by the 'feel' of the place due to the litter. Thus the odds of them investing into Huntly are massively reduced. Thus the whole of Huntly suffers from under investment, and lack of employment opportunities.

The other impact is a more subtle one. It is the impact on the folks living with the litter, their self image, self care and care of resources. When we live, work or play in an area that has a high litter quantity, we are impacted. This impact reduces our self worth, that is we don't feel like 'a million bucks' because our environment tells us we are not worth it. And we don't take the same care and positive attention to assets and gear because again our environment tells us that things are not well looked after. So helping a community to change and have pride in itself goes hand in hand with a reduced litter problem.

Thus anything that reduces the litter would be helpful.

Also litter pick up costs move onto the rate payer. Thus from a cost point of view the reduction in cost from reduced litter pick up would be helpful to residents many who struggle to pay their rates.

An example of the litter problem, which impacts both the 'feel' of a place and the cost for pick up is on the ratepayer is shown in the photos below. This is located in a council carpark on the mainstreet of town (location number 44 mainstreet). As it clearly shown there is significant litter issue, and has been there for some time. This is a visual drain on the area, and eventually when enough CRM's have been raised over this issue, the council contractors will actually get to picking it up (been raised at least twice). In the mean time it is an eye sore and a hazard waiting to occur, due to potential broken glass issues.

If councillors or council staff found this level of litter in a corner of the public carpark in the Ngaruawahia, they would be rightly revolted. They would also worry about what this communicated to the public about WDC and it would be cleaned up asap. Now Huntly feels the same impact, just that locals are jaded to this, as it is so common.

3) Volume of broken glass and litter It is hard to envision the share volume of broken glass and litter without having experienced it first hand. The chair attempts to spend an hour on Sundays doing something practical for the town. Often this is picking up litter in a particular area. When consultation arrived, he choose a street in Huntly that he used to periodically use to get home. This is a somewhat typical urban street in a lower socio-economic area of town. The goal was to walk the street gutter and pick up litter. And document any liquor related litter.

The google street map is shown below, the first stretch of three and half sections, on one side of the road (the red line) the chair came across:

- Small volume of broken glass from smashed beer bottle. The large chunks of glass had been removed, leaving the small pieces behind, still able to cut feet, but not conspicuous.
- Woodstock can
- Crushed cody's (rum and cola) can
- Small volume of broken glass from light ice beer bottle. The large chunks of glass had been removed, leaving the small pieces behind.

Thus the chair was spending as much time noting the alcohol related litter, than actually picking up the litter. So at this point the chair decided only to take note of the major litter / glass issues and ignore the small volumes of broken glass / litter. So in the next three and half homes, (the orange line), the following major litter / glass issues were observed:

The last photograph doesn't capture the issue very well because it is spread over a large area, but is a clear glass spirits bottle (750 ml or 1000 ml) smashed on the road, with large chunks of glass in the gutter and surrounds. Also four aluminium cans (one off camera) scattered through this glass.

At this point, the chair gave up documenting the volume of litter and hazards caused by drinking in public spaces. Since he was spending more time documenting than picking up litter.

Remember that this level of broken glass and litter was just across a few randomly selected homes, on a pseudo-randomly chosen part of town. The chair would be very happy to take anyone for a walk through the streets of Huntly on a Sunday showing the hazards and litter caused by public consumption of litter.

So the volume of broken glass and litter is a very large amount, and plays a significant part in the daily life of many Huntly residents.

4) Public drunkenness. Drinking in public spaces, leads to public drunkenness. This can really impact the folks who have to walk by, etc. The chair was in town the week that this was released for consultation. Having dreads and a long beard is socially acceptable in Huntly. However the chair visits places that people clearly are uncomfortable with his choice of hairstyles. This shows up in their body language and facial expressions.

Given he was in Huntly mainstreet, it was surprising that a women was walking towards him with a look of a mixture of fear, disgust and other negative emotions. This appeared out of place, and the chair thought it unusual for Huntly. However once they had passed, he noticed a drunk standing next to the building on the footpath, with beer placed on the cobbles. He was talking to the passers by, and clearly the women on the street felt unsafe and the drunk clearly caused discomfort to the women. The chair unfortunately was in a rush, and wasn't till later and reflected that he realized he should have called it in to the police, or at least done something.

It was a learning experience how someone could have a big impact into a 'feel' of a place, and how their behaviour, if allowed to continue long term, would drive away those who would otherwise be their.

This is also reflected in community feedback with comment made:

- Constantly having young drunk people walking passed [in the] middle of the day drinking and having to keep my son away from them
- [Support the ban] So he drinking that go's on down there [in the green cathedral] and cars ripping up the gravel at all hours of the day and night, but most of all it will be safer for the children and all public to enjoy.

Conclusion

All of above examples of litter and hazards, really impact the tone of the town. Huntly suffers from a reputation problem. And as a result employers are hardly lining up to create jobs in the town. And investment into the town and community isn't happening. Part of changing a reputation of a town, is changing how the town sees itself. The broken glass and litter is a daily, constant reminder of how Huntly is a 'down and out' type of place. So not only is the practical impact of hazards of broken glass, or the litter expenses. But it extends to the soul of the town. Thus removing liquor consumption from public spaces, would reduce the scaring on the towns soul and bring a small amount of healing to the town. Thus Huntly Community Board supports a town wide ban on consumption of liquor in public spaces.

Feedback on Alcohol Control Bylaw 2020

This feedback is from the Onewhero-Tuakau Community Board.

Thinking about 'key proposal one' – the proposed 24/7 permanent alcohol ban areas in our town centres (option1) or larger urban areas (option 2) Do you?

The only town centre in the Onewhero-Tuakau community board area is Tuakau. The Board supports option 1 with the alcohol ban confined to the immediate town centre area as this area is more clearly defined than the broader option 2.

The Board presumes that these restrictions will not impact on on-license and off-licence premises.

Thinking about 'key proposal two' the proposed timed alcohol control times of 9pm -9am in all Council controlled parks, reserves and esplanades. Do you ?

Support the proposed bylaw

Support the proposed bylaw in part

I do not support the proposed Bylaw

The Onewhero-Tuakau community board understands that the Pukekohe area currently has 7pm-7am alcohol control times and the current alcohol control times within the Tuakau area are 7pm-7am. The Tuakau area is policed by the Counties Manukau Police who would be familiar with the 7-7 control times. The Onewhero-Tuakau Community Board support the retention of the current control times of 7pm-7am for the Lightbody, Batkin and Tuakau recreational reserves and Alexandra Redoubt.

We understand that other Waikato council areas have previously had later alcohol control times and the Community Board also is also aware of the impact that any time chosen would have on community events that occur in community halls, particularly in the rural area. At these events those attending might bring a bottle of wine or a few beers and in Summer the event frequently involves people gathering outside the hall on the adjacent reserve (Christmas community BBQs etc).

As indicated in the consultation document the legislation does put greater responsibility on council to justify the alcohol bans or restrictions put in place within its bylaws. The Onewhero-Tuakau Community Board would be keen to see the reported incidents from recent years for parks, reserves and esplanades that fall outside of the proposed permanent alcohol ban for the town centre or and what time those incidents occur. This information could assist in determining the most appropriate time for alcohol control times in reserves and parks without unduly impacting on local community events.

Whilst the Community Board understand that the police are not planning to actively enforce the bylaw an early control time (such as 7pm) across the Waikato District could undermine community events and create difficulties for those advertising these events for example: if a rural community is promoting a community BBQ starting at 6.30pm would they have to advise 'no alcohol consumption after 7pm' (if that earlier time was agreed).

Given the above and on balance the Community Board supports the proposed 9pm-9am times for the parks, reserves and esplanade alcohol control areas outside of those mentioned within the Tuakau area.

24 hour a day, seven days a week, 365 days permanent ban proposed for Wainui Beach, Sunset Beach, Karioitahi Beach and Maraetai Bay

The consultation document indicates that these beaches have previously had permanent alcohol bans in place (with the exception of Maraetai Bay) to prevent anti-social behaviour. This approach seems unduly restrictive and means people enjoying fishing from the shore with a couple of beers or a family having a beach picnic with a bottle of wine are breaching council bylaws.

There is a range of anti-social behaviour that can occur on a beach and not all of it is linked to alcohol – the most obvious being irresponsible use of a vehicle or motorbike which might annoy or endanger many people on the beach.

The Onewhero- Tuakau Community Board believes that the same alcohol control provision times (9pm – 9am) could be applied to the beaches as is agreed for parks, reserves and esplanades (especially given some beaches have an esplanade area immediately adjacent). The other option is to broaden the use of ‘seasonal alcohol control ban areas’ for these beach areas if the anti-social behaviour is more prevalent in the Summer months.

Temporary Alcohol control areas

In the proposal it is proposed that temporary alcohol control areas can be declared for a specified period not exceeding seven days. The Onewhero-Tuakau Community Board is wondering if these provisions could be extended to a one- month period and then these could be used if an area becomes a hotspot for anti-social behaviour related to alcohol use. Use of temporary alcohol control area provisions for a one month period would allow the Council to respond more quickly to situations as they arise and enable the Council to give the police the ability to address the issue in that local area without having to review the provisions of the bylaw.

Use of other legislation

Whilst this consultation document focuses on the Alcohol Control Bylaw there are other pieces of legislation the council or police can enforce to deal with anti-social behaviour that might arise from alcohol consumption in public areas:

Litter bylaws – could be used to address the discarding of alcohol bottles or cans and other rubbish

Drunk and disorderly provisions – for those who are intoxicated in a public place

Discharge of a dangerous object – could be used to deal with broken bottles

Drink-driving or vehicle legislation – could be used to deal with some anti-social behaviour on beaches

Noise bylaws – to deal with loud music

Education

The Community Board also recognises that whilst alcohol is legal there are issues around where people drink and how they drink and more education around responsible alcohol consumption and disposal of containers would be useful in addressing some of the anti-social behaviour and environmental damage that occurs as a result and which these bylaws try to address.

**Tamahere Community Committee Draft Submission
Waikato District Council
Alcohol Control Bylaw Review**

23 September 2020

Background:

The Village area of Tamahere has been expanded and developed over recent years adjacent to the school with the formation of Tamahere Park and the Commercial area.

Tamahere Community Committee (TCC) believes that the Bylaw needs to be applicable to areas around the new Village Hub at Tamahere, and therefore a map will be required in the First Schedule.

We support the Purpose of the bylaw. As stated in section 2.0

Section 4.0 Alcohol Ban Areas:

We suggest that:

- a) the area within Tamahere Park comprised of the Carparks, Playground, Skatepark and the Hard Court area and area of 10 meters surrounding these facilities
- b) the road, berms, footpath areas around the edges of Tamahere Park, Model Country School, the Tamahere Playcentre, Little Pumpkins Childcare Centre, the Tamahere Church, the Tamahere Community Centre, their adjacent car parks and the Tamahere Village Commercial area

be designated as being Alcohol Ban areas 24/7 365 days per week. We do not want to see alcohol consumption occurring in these areas at any time.

Please Note that we envisage that the area in the Village Commercial Area adjacent to the Restaurant/Bar and Café will have an outdoor seating area where the consumption of alcohol will be allowed and subject to the license of the business.

Section 5.0 Alcohol Control Areas:

We believe that Alcohol Control areas should be declared in the Piazza area, and the balance of the Tamahere Park environs not covered by the area suggested in Section 4. The control should be permanent and prohibit the consumption of, bringing into, or possession of alcohol in these areas from 9pm to 9.00am. This would hopefully allow for public events, picnics, etc to include the consumption of alcohol in a non-nuisance way. The permanent bar b que area would fall into this category.

Signage:

We support good clear signage and good consultation and advertising of the new implication of this bylaw on the Tamahere Village area as this will be a new application in the area.

The reasons for our suggestions in Section 4 and 5 above are that during the time the New facilities have been open for use in Tamahere in the last year or so we have noticed the drinking of alcohol and the related litter and unsatisfactory behaviour at times. The areas of the park are intended for use by all ages and families and we wish to make it safe for all and family friendly.

Unfortunately, in the time available we have not been able to supply evidence of the unacceptable behaviours having seen and heard of these but not taken photos or dates and times etc. We believe that police have been contacted by members of the public at times. Generally, the area is working extremely well with playgrounds and sports fields well used by a variety of people. This will only increase. It is important that we have an Alcohol Control Bylaw to assist with keeping the area safe for all.

We would be happy to discuss this in more detail and gather evidence if required.

Hearing: Waikato DHB does not wish to verbally support its submission

Date: 5 October 2020

Introduction

1. Waikato District Health Board (Waikato DHB) presents this submission through its Public Health Unit. Regarding matters concerning public health, the Public Health Unit is the principal source of advice within Waikato DHB. Under the New Zealand Public Health and Disability Act 2000, Waikato DHB has responsibility to improve, promote and protect the health of people and communities. Additionally, there is a responsibility to promote the reduction of adverse social and environmental effects on the health of people and communities. With over 7000 staff, Waikato DHB delivers health services to a population of more than 400,000 people across the Waikato region, and tertiary-level services to the Midland region with a population of over 840,000.
2. Waikato DHB appreciates the opportunity to comment on Waikato District Council's proposed Alcohol Control Bylaw 2020 through this consultation process.
3. Waikato Public Health and Auckland Regional Public Health Service (ARPHS) have shared geographic responsibilities across a number of territorial authorities within the Waikato DHB area. Where joint boundary responsibilities occur such as in the Waikato District, the two services work closely together to ensure perspectives and responses are aligned across all matters concerning public health.

4. Due to COVID-19, many public health units are stretched to capacity and have had to look at new ways of having their voices heard on important health topics such as Waikato District's proposed Alcohol Control Bylaw 2020. As such, we are delighted to accept an endorsement of support from ARPHS for this submission and recommendations.
5. Waikato Public Health applauds Council's leadership in using a combination of tools (Local Alcohol Policy 2017 and its proposed Alcohol Control Bylaw 2020) to reduce the burden of alcohol-related harm across its district.
6. Alcohol harms impose a major burden on public health and society in general, but alcohol remains the most commonly used recreational drug in New Zealand¹. Harm from alcohol extends far beyond the individual and can result in harm to children, including exposure to alcohol during pregnancy; whānau; friends, and the wider community.
7. The harmful health impacts of hazardous drinking are divided almost evenly between injury and chronic disease outcomes, burdening both inpatient and outpatient hospital services including primary care services in the community.²
8. The economic cost of alcohol is also significant with estimates of \$5billion to the public purse whereas \$1billion is accumulated through taxation.
9. Māori are disproportionately burdened by alcohol-related harm. Waikato DHB has a strategic imperative to achieve radical improvement in Māori health outcomes by eliminating health inequities for Māori;³ therefore it is critical to engage effectively with Māori to ensure a strong equity focus is placed on the Bylaw and to ensure the principles and obligations of Te Tiriti o Waitangi are honoured.

Waikato DHB's position on Alcohol

10. The Waikato DHB recognises alcohol consumption is a significant risk factor in a wide range of adverse conditions. Alcohol has the potential to harm individuals acutely by means of intoxication, alcohol poisoning or accidental harm while drunk, and chronically by means of long term damage to organ systems. Alcohol-related harm also can often affect those who are not even consumers, but third parties affected by drinking decisions of others. The burden of alcohol on the Waikato Hospital Emergency Department presentations is substantial.⁴
11. The purpose of New Zealand's Sale and Supply of Alcohol Act 2012 is to minimise harm created by excessive or inappropriate alcohol consumption. Waikato DHB supports measures in the Act aimed at minimising harm and advocates for additional measures to reduce alcohol-related harm further.⁴

Submission

12. Waikato DHB supports Waikato District Council's proposed Alcohol Control Bylaw 2020. The bylaw sets out to control the consumption of alcohol in public places and intends to reduce alcohol-related harm. In particular, we support the following:

Proposal 1

Public Health Waikato DHB supports the introduction of a 24/7 365 day permanent alcohol ban in urban areas (option 2) as identified on the maps by red dotted lines; (excluding Council control parks, reserves, and esplanades) in Council's Statement of Proposal.

- Alcohol bans improve the perception of safety among community. Alcohol bans represent local communities reclaiming public spaces that had been taken over by alcohol fuelled behaviours that range from inappropriate and unwelcome comments and language to drunken, abusive and threatening behaviour and damage to property.
- Consumption, bringing or possession of alcohol in public places encourages crime, disorder and incidents of alcohol-related harm. This can lead to a reduction of the amenity and good order of a place making that place undesirable for use by the community and public in general.
- The incidents included by Police in their submissions are evidence of this. For example, Police report that at least 30% of all calls for service to Police are directly linked to the causation of poor behaviour due to the influence of excessive alcohol consumption. From January 2017 to December 2019, Police reported 31 Breach of Liquor Ban Notices across the Waikato District with corresponding incidents of assaults; public place disorders; driving matters; robbery; theft; wilful damage, and graffiti.⁵

Proposal 2

Waikato DHB opposes the introduction of a 9pm to 9am timed alcohol control in Council controlled parks, reserves and esplanades.

Waikato DHB recommends a permanent alcohol ban be introduced in these areas.

- Open spaces are recognised as important components of the urban environment and provide opportunities for recreation and leisure. Council parks, reserves and esplanades are areas more likely to be visited by families and visitors. It is therefore appropriate to introduce a permanent alcohol ban to reinforce public areas as safe and secure environments for children and families.
- Special licences such as on- and off-site licences allow for the sale or supply of alcohol at events in public places such as food and wine festivals or some types of private functions. Special licences provide opportunities for alcohol consumption where alcohol is otherwise prohibited 24/7 in public places.

⁵ Senior Sergeant David Hall. NZ Police. Summary of Reports to Police Involving Alcohol Incidents and Offences in the Waikato District TLA 2017-2019.

- A permanent alcohol ban helps denormalise alcohol use for children and young people, especially in public places spaces. Ensuring a sense of safety in public places must be a priority for council and evidenced within the district's broader alcohol control response.
- Council has responsibility for around 50 parks and reserves across its district. The district's Neighbourhood Parks Reserve Management Plan 2016 works in conjunction with other strategies that impact neighbourhood parks such as the Playground Strategy; Signage Strategy, and Toilet Strategy.
- We acknowledge that Council works effectively with key services such as Police and Health and we commend council for its ongoing commitment to broader partnerships and responses to alcohol control across its district.
- Our organisation recognises that council has a Joint Management Agreement in accordance with the Waikato-Tainui Raupatu Claims (Waikato River) Settlement Act 2010 and recognises its legal obligations and responsibilities to Waikato-Tainui and the wider Māori community. Waikato-Tainui are key partners contributing to the broader political, social, cultural and economic wellbeing of the district including any customary activities on the Waikato River.⁶

Proposal 3

Waikato DHB supports the introduction of seasonal alcohol control ban areas where alcohol is prohibited 24/7 in public places over set dates.

Waikato DHB supports the introduction of an Alcohol Control Bylaw Seasonal Ban Area 24 hours a day from 23 December to 10 February.

- Our organisation supports seasonal alcohol bans particularly over the summer period. As we approach Christmas and New Year, presentations to Hospital Emergency Departments (ED) spike, with one in four presentations resulting from the harmful use of alcohol.
- Waikato DHB experiences other concerns around the summer period as many local services like General Practices and rural hospitals reduce staff and services. Alcohol-related ED presentations present as violent assaults; motor vehicle crashes; mental illness; overdoses, and family violence, diverting time and resources away from other people including older people and young children.⁷
- Public Health notes that alcohol-related harm does not just affect locals but over time has an impact on visitors' perception of the safety of towns. Areas in Waikato district like Raglan and Wainui Reserve, attract large numbers of visitors. Successful reduction of alcohol-related harm necessitates the management of alcohol, and alcohol bans are an effective tool for this. Alcohol bans are a means

⁶ Waikato District Council. Waikato District Neighbourhood Parks Reserve Management Plan. August 2016.

⁷ Jo Lines-MacKenzie. *One in four hospital ED admissions related to alcohol*. Stuff December 20 2016.

to reclaim community spaces for residents and visitors. This is likely to have positive flow on effects for both the economy and reputation of these towns.

- We are aware that seasonal alcohol bans can be confusing for the public, both permanent residents and holiday makers. Many homeowners rent out their properties to New Zealand and international tourists, some of whom cause alcohol-related issues and others of whom are put off from returning by those issues. We would therefore **recommend** that alcohol ban areas are well signposted and supported by a wide range of communication media.

Conclusion

13. Working across a number of Territorial Authorities in our area on these issues, we note that there have been very few submissions opposing Alcohol Bans. This in part is that most communities support alcohol bans and understand the value and public safety it brings to their town and communities. Our organisation commends Waikato District Council on this proposed bylaw.

Submission on the Waikato District Council Proposed Alcohol Control Bylaw 2020

The Auckland Regional Public Health Service (ARPHS) would like to formally register our endorsement and support for the submission and recommendations made by the Waikato District Health Board regarding the Waikato District Council Proposed Alcohol Control Bylaw 2020.

ARPHS' primary role is to improve population health across the three district health boards (DHBs) in the Auckland region (Counties Manukau Health, Auckland and Waitematā District Health Boards). Part of the Counties Manukau District Health Board area extends into the Waikato District Council area (Tuakau, Kariotahi Beach, Port Waikato, Meremere) hence ARPHS's interest in the proposed bylaw.

Alcohol is not an ordinary commodity. Despite this, alcohol has been normalised and largely accepted by society. ARPHS therefore supports any proposal aligned with the three 'best buy' evidence based policies as recommended by the World Health Organisation (WHO) to address alcohol related harm:

- Increase the price of alcohol
- Regulate the availability of alcohol
- Restrict or ban alcohol advertising and promotions.

The primary point of contact for this submission is:

Appendix 1: Auckland Regional Public Health Service

Auckland Regional Public Health Service (ARPHS) provides public health services for the three district health boards (DHBs) in the Auckland region (Counties Manukau Health, Auckland and Waitematā District Health Boards).

Auckland Regional Public Health Service has a statutory obligation under the New Zealand Public Health and Disability Act 2000 to improve, promote and protect the health of people and communities in the Auckland region. The Medical Officer of Health has an enforcement and regulatory role under the Health Act 1956 and other legislative designations to protect the health of the community.

Auckland Regional Public Health Service's primary role is to improve population health. It actively seeks to influence any initiatives or proposals that may affect population health in the Auckland region to maximise their positive impact and minimise possible negative effects.

The Auckland region faces a number of public health challenges through changing demographics, increasingly diverse communities, increasing incidence of lifestyle-related health conditions such as obesity and type 2 diabetes, infrastructure requirements, the balancing of transport needs, and the reconciliation of urban design and urban intensification issues.

APPENDIX 5 – LATE SUBMISSION

Subject: RE: [EXTERNAL] RE: Waikato Police - Feedback sought on the Waikato District Council Proposed Alcohol Control Bylaw 2020

Hi Jodi

Sorry I have been busy and have not been able to respond as yet.

I realise it is now too late to make submissions. I have discussed the proposal with my colleague here in Raglan. We are both long-time Raglan Police members and residents.

For what it is worth, here are our thoughts :

Key Proposal 1 - We would be more comfortable with Option 1 (being pretty much what we had in Raglan before). We believe Option 2 (extending to urban areas) would severely impact on our workload especially over the busy summer period. We also feel that it is over-kill really.

Key Proposal 2 – We would be happy with 9pm – 9am ban in Council controlled parks, reserves and esplanades. We would also be happy with the previous times of 10pm-10am (as in the previous alcohol ban).

Key Proposal 3 – Seasonal alcohol control ban – again we feel that this is over-kill to extend this out to 10 February. We believe the previous time period of 23 December to 6 January is sufficient.

Wainui Reserve proposal to go 24/7, 365 days a year ban – we do not support this. We feel the 10pm-10am (or 9pm – 9am) ban in council reserves and parks sufficiently covers this area.

I reiterate the Raglan Police position as outlined in my letter of support dated 31 January 2020 :

Raglan Police would support the former liquor ban coverage being reinstated as follows :

- *24/7, 365 days a year in the CBD area,*
- *24/7, 365 days a year in all WDC Reserves from 2200hrs – 1000hrs,*
- *Whole area liquor ban 23 December – 6 January every year.*

I trust this is of some assistance to you.
