| 646.33 | | | <p>Amend the activity specific conditions in Rule 14.3.1.1 for Minor Infrastructure Upgrading (P2), as follows: (1)(b) Permitted height increase for an existing pole to the <u>"lesser of 25m or 30%"</u>. (c) Amend permitted pole or support structure width to twice the width of the existing pole at the widest point, unless a double pole is required to replace a single pole where the permitted pole or support structure width required is three times the width of the existing pole at the widest point (double poles may be required for electricity networks). (3) The addition, replacement or relocation of existing antennas where: (a) <u>The antennas shall not increase in the face area by more than 20% of the relevant permitted standard for new panel antennas and shall not increase the diameter of a dish antenna by more than 20% of the relevant permitted standard for a new dish antenna;</u> and (b) <u>The antennas shall not increase in height by more than 20% of the relevant permitted standard for new dish and panel antennas. Note that the area controls are not applied to other antennas types such as those that are made up of rods and tubes, which are controlled by standard (3)(b).</u> AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.</p> | Accept in part | Decision Report 13: Infrastructure |
