The decision I would like is: A rule added to the Rural, making sure that wetlands do not become a dam, stopping the usual flow of water and therefore flooding neighbouring properties.

My reasons for the above are:

At present there is no rule in the district plan for Council to monitor the effects that a wetlands has on neighbouring properties. With my neighbours developing wetlands on the boundary, the natural flow of water is hampered, and is reaching the stage where over winter a large portion of my property is underwater.
