

## 30 Designations

### Introduction

#### 30.1

A Minister of the Crown or a local authority with financial responsibility for a public work, or a network utility operator that has been approved as a requiring authority under section 167 of the Resource Management Act, may require land to be designated within the plan. The designations are shown on the planning maps.

#### 30.2

The effect of a designation is that the requiring authority responsible for the designation may do anything that is in accordance with the designation, irrespective of the ordinary rules in the plan that might otherwise control the activity. Other people may not, without the prior written consent of the requiring authority, do anything in relation to the designated land that would prevent or hinder the project or work to which the designation relates. The zone rules regulate activities that are not covered by the designation.

#### 30.3

Designations in the plan include existing designations rolled over from earlier district plans either 'without modification' or 'with modification' under clause 4 of the First Schedule to the Resource Management Act. Most of these works have been given effect to. The plan also includes new notices of requirement for a designation lodged with Council.

#### 30.4

Designations for works that have not been given effect to lapse after five years unless a longer period has been specifically identified.

#### 30.5

The following organisations are requiring authorities that have designations in this plan.

- A [Airways Corporation of NZ Ltd](#)
- B [Minister of Conservation](#)
- C [Minister of Education](#)
- D [Environment Waikato](#)
- E [Hamilton City Council](#)
- F [Hauraki District Council](#)
- G [Minister of Justice](#)
- H [Minister of Police](#)
- J [New Zealand Transport Agency](#)

## Waikato District Plan - Waikato Section

- K [Transpower New Zealand Limited](#)
- L [The New Zealand Railways Corporation](#)
- M [Waikato District Council](#)
- N [Waikato Regional Airport](#)
- N1 [Waikato Regional Airport Limited](#)
- P [Minister of Corrections](#)
- Q [WEL Networks Limited](#)
- R [First Gas Limited](#)
- S [Radio New Zealand Limited](#)
- T [Contact Energy Limited](#)

### 30.6

Advice Note: A designation does not exempt a requiring authority from first obtaining an authority from Heritage New Zealand Pouhere Taonga if an archaeological site is to be destroyed, damaged or modified.

#### Airways Corporation of NZ Ltd (A)

Des #	Purpose of designation	Location	Area (ha)	Legal description

### New Zealand Transport Agency (J)

All state highways identified on the left hand page of the planning map are deemed to be designated except for State Highway 1B and State Highway 39. Designations of the New Zealand Transport Agency allow the construction, use, development and operation (including the improvement, enhancement, realignment, alteration, expansion and maintenance) or any other such purpose relating to the management of State highways in accordance with the Land Transport Management Act 2003 and the Government Roading Powers Act 1989.

Des #	Purpose of designation	Location	Area (ha)	Legal description
J1	State Highway 1 (Limited access except those parts within the former boroughs of Huntly and Ngaruawahia as at October 1989, and that part of Taupiri between Mangawara bridge and Kainui Road)	From Franklin District/Waikato District boundary north of Meremere to Hamilton City/Waikato District boundary at Ruffell Road, and then from Hamilton City/Waikato District boundary at Newell Road to Waipa District/Waikato District boundary at Racecourse Road.		
J2	State Highway 2 (limited access)	From Franklin District/Waikato District boundary at Mangatangi Stream to Hauraki District/Waikato District boundary.		
J3	State Highway 26 (limited access)	From Hamilton City/Waikato District boundary at Matangi Road to Matamata Piako District/Waikato District boundary.		
J4	State Highway 23 (limited access)	From Hamilton City/Waikato District boundary at Wallace Road to Raglan.		
J5	Regional Arterial Road State Highway 21 (limited access)	From junction with State Highway 1 at Tamahere to Waipa District/Waikato District boundary at the Narrows Bridge.		
J7	Road for state highway and road for access to state highway (Waikato Expressway – Cambridge Section)	SH1, Discombe Road		
J8	Proposed SH 23 realignment Waitetuna	SH No 23 / approx 0.3500 (30m wide)		Part of Section 1 SO 59266. (15 year designation)

Waikato District Plan - Waikato Section

Des #	Purpose of designation	Location	Area (ha)	Legal description

## Waikato District Plan - Waikato Section

### Waikato Regional Airport (N)

Please refer to the back of this chapter (Chapter 30) for more information on the Waikato Regional Airport Designation.

Waikato Regional Airport Limited (N1)

The designation appears on the planning map.

The safe operation of aircraft using the Hamilton Airport requires that there be obstacle-free air space around the airport. International specifications defining surfaces above which there must be no obstacle have been adopted by the Civil Aviation Authority of New Zealand. These surfaces are known as Obstacle Limitation Surfaces and are defined in terms of distances from the runways and heights relative to the runways.

The planned 2984 metre long Main Runway and the Subsidiary Runway and their associated runway strips are defined as follows:

**1. Main Runway**

The Proposed Main Runway once extended is 2984 metres long (including 188m long starter extensions at each end) and 46 m wide.

**2. Main Runway Strip**

The Proposed Main Runway is contained within the Main Strip. The Main Strip is 2728m long by 300m wide. The coordinates and elevations of the four corners of the Main Strip, in terms of the Geodetic Datum 2000 - Mt Eden Circuit and the Moturiki Datum are as follows:

mN	mE	Elevation
689584.61	449606.95	49.85
689500.00	449894.77	49.85
692201.79	450376.50	56.50
692117.17	450664.31	56.50

**3. Existing Subsidiary Runway Strip**

The existing Subsidiary Runway Strip is 748m long and 120m wide. The coordinates and elevations of the corners of the Subsidiary Strip, in terms of the Geodetic Datum 2000 - Mt Eden Circuit and the Moturiki Datum are as follows:

mN	mN	Elevation
690876.23	449359.68	51.30
690756.78	449348.20	51.30
690685.32	450091.64	52.00
690804.77	450103.12	52.00

#### 4. Proposed Realigned Subsidiary Runway Strip

It is proposed to realign the existing Subsidiary Runway Strip. The length of the realigned strip will be 720m and the width will remain at 120m. The coordinates and elevations of the realigned subsidiary strip, in terms of the Geodetic Datum 2000 – Mt Eden and the Moturiki Datum are as follows:

mN	mN	Elevation
690896.36	449420.14	51.30
690778.96	449445.88	51.30
690951.26	450141.22	52.00
691069.02	450117.51	52.00

The Obstacle Limitation Surfaces associated with these runway strips are defined as follows:

#### 5. Horizontal Surface

The horizontal surface is above the Main Runway with an elevation of 95m Moturiki Datum. The outer limits are at a locus of 4000 metres measured from the periphery of the Main Strip.

#### 6. Conical Surface

The conical surface slopes upwards and outwards from the periphery of the Horizontal Surface at a gradient of 1 vertical to 20 horizontal (1 in 20) to an elevation of 202m above Moturiki Datum.

#### 7. Main Strip Takeoff and Approach Surface

There is a combined Takeoff and Approach Surface at both ends of the Main Strip. Each Takeoff and Approach Surface rises upwards and outwards from the ends of the Main Strip at a gradient of 1 vertical to 62.5 horizontal (1 in 62.5) commencing at 56.50m above Moturiki Datum at the Northern end and 49.85m above Moturiki Datum at the southern end. The Takeoff and Approach Surface extends for a horizontal distance of 15,000m (15km). Each side of the Takeoff and Approach Surface diverges from the extended line of each edge of the Main Strip at a rate of 15% of the distance from the end of the Main Strip.

#### 8. Subsidiary Strip Takeoff and Approach Surface

There is a combined Takeoff and Approach Surface at both ends of the Subsidiary Strip. Each Takeoff and Approach Surface rises upward and outwards from the ends of the Subsidiary Strip at a gradient of 1 vertical to 20 horizontal (1 in 20) to where it intercepts the Horizontal Surface. The sides of the Takeoff and Approach Surface diverge from the extended line of each edge of the Subsidiary Strip at a rate of 10% of the distance from the end of the Subsidiary Strip.

#### 9. Transitional Side Surfaces

These rise upwards and outwards from the sides of both the Main and the Subsidiary Strips and the edges of each Takeoff and Approach Slope to intercept the Horizontal Surface. The Transitional slope for the Main Strip is 1 vertical to 7 horizontal (1 in 7) and the Transitional slope for the

## Waikato District Plan - Waikato Section

Subsidiary Strip is 1 vertical to 5 horizontal (1 in 5). All of the above surfaces are illustrated in Maps 26, 27, 27.1, 27.2, 27.3, 27.4, 28, 32.

The Horizontal, Conical, Main Runway Approach Surface at the northern end of the Main Runway and the Subsidiary Strip Approach Surface at the eastern end of the Subsidiary Strip extend into Waikato District. In order to ensure safe and unrestricted operation of Aircraft using the Airport, no building, object, structure or tree is to extend through or above these surfaces.

### Minister of Corrections (P)
